What if Nikola Tesla had been a

Juggler ? Or a musician ?!

A crazy scientist plays with
electricity, water and talco powder.

REX is an explosive mix of black
humor, weird inventions and
craziness.

*Juggling with high pressure water

*Electricity used to transform humans into pianos

*Human fountains

*Musical water sampler

*Explosions of fluorescent liquids

The inspiration for this show came to me when I studied on Nikola Tesla life. I have always been fascinated by the inventor's life: the dedication and the sacrifices to discover something that did not exist before. In REX I wanted to explore the joy, the fear and the pain which come with new inventions.

ChiLoWatt -electric company+

Chilowatt was born in october 2014 with a mission: explore the goods and the bads of the relationship between technology and human beings. We use technologies as tools to better understand human nature.

Productions: Differenza di Potenziale (circus light show, 2015); SLICES (solo performance 2017); REX (contemporary circus show 2018);

Lorenzo Crivellari

Juggler, musician and inventor apprentice, is from Novara, Italy. In 2007 he founds the Fool's wing company with Shay Wapniaz, performing "Street swing" all over Italy's festival. From 2013 he works as a performer in Alessandro Sciarroni's (contemporary dance choreographer) piece called "UNTITLED I will be there when you die". In 2014 he founds

Chilowatt -electric company+ and creates, with Chiara Lucisano, "Differenza di Potenziale" a circus light show using optic fibers and aerieals, SLICES a solo performance for 1 spectator at the time, REX a show inspired by Nikola Tesla. He is a composer and musician for the piece "Simposio del silezio" by Lucrezia Maimone.
